Programming of web pages – lab 2

Exercises

Please download the template from the following website:

http://kisi.pcz.pl/File/163df1ab-f94e-405d-8255-ed4043c56c5e

All exercises should be performer using downloaded template.

1. Please create new file „style.css". Next, please add reference to this style sheet file inside head section.
2. Please set silver background color of the website.
3. Please set gold background color of the first and last *div* tag. For this purpose, please create *class* attribute in mentioned tags and create selector which uses this class.
4. Please set font family of the website to "Verdana".
5. Please set font size of headers to 24 pixels.
6. Please set font size of other elements to 18 pixels.
7. Please make bold text in all *span* tags.
8. Please set green text color of *span* tag in the first *div* tag. For this purpose, please create identifier attribute in *span* tag and create a proper selector.
9. Please set red text color of *span* tag in the third *div* tag. For this purpose, please create identifier attribute in *div* tag and create a proper selector.
10. Please put in the background of the website the following image:
    https://www.kisi.pcz.pl/~mzalasinski/pcz_logo_en.png
    The image shouldn't be repeated and it should be displayed in the top right corner.
11. Please add a blue dashed border to the second *div* tag. Please set width of the border to 2 pixels.
12. Please add a border to the third *div* tag. Top and bottom borders should be black, solid and their width should be equal to 5 pixels. Left and right borders should be red, solid and their width should be equal to 5 pixels. Corners should be rounded - radius = 20 pixels.
13. Please set text color of all hyperlinks to black and remove underline from them.
14. Please set gray text color of all hyperlinks when the mouse cursor is above them.
15. Please align text of the second *p* tag of the second *div* tag to the right.
